

Looking for a Medical/Hospital filming location in the suburbs of Pittsburgh?

We invite you to tour Keystone Simulation and Education Center. KSEC is a 24,000 square foot simulation training facility located just 40 minutes from downtown Pittsburgh on 22 acres in Monaca, PA. The simulation settings include:

- Emergency room with ambulance
- Obstetrics and Gynecology room with birthing suite
- Neo-Natal and Pediatric ICU room
- Intensive Care unit
- Medical Surgical rooms to depict hospital in-patient stays
- Family Practice offices for physician visits
- Home Health Care facility for assisted living and nursing home scenarios
- Hospital pharmacy and Blood Bank

Each room is equipped with integrated video, capable of viewing the same presentation simultaneously, as well as the capacity to show different presentations consecutively in each room.

This simulation rooms look and feel like “real life” settings. The equipment, computerized mannequins and physical space replicate medical scenes. Filming in this type of venue will contain project costs and save valuable time. You can control the lighting, surroundings and maintain security around your project for photography, filming for television shows, movies, documentaries or commercials. Krol Media is partnering with KSEC in promoting this new, exciting facility to meet your needs.

Please contact Executive Director, Lynell Scaff at 724-495-6808 to tour this brand new facility – Keystone Simulation and Education Center 612 Frankfort Road, Monaca, PA 15061 lscaff@ksecpa.org
